DETAILED ACTION

1. This action is in response to the amendment filed 12/5/2007.
2. Claims 1-34 and 54-58 have been canceled; claims 35, 36, 39, 41, 46, 49, 52, 53, 59 and 60 have been amended.
3. Claims 35-53 and 59-64 are allowed.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Daniel D. Ledesma (Reg. No. 57,181) on 1/4/2008. Examiner's amendment was necessitated to further clarify the apparatus claims to overcome the software per se.

Claims 46 and 52 have been amended as follow:

After "comprising:" at line 2 of each claim, insert "one or more processors".

EXAMINER'S STATEMENT OF REASON(S) FOR ALLOWANCE

5. Applicant's response, filed 12/5/2007, with respect to claims 35-53 and 59-64 has been fully considered and is persuasive. Pages 14-19 of said applicants' response are helpful in clarifying the record of the prosecution by clearly distinguishing the differences between the present application and the prior art.

6. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fails to teach or reasonably suggest *simulating, using a software update simulator on the computer system, processes from at least one node of the networked nodes, wherein each simulated process is a minimal version of a functional process that runs on said node, wherein said control process determines running functional mode process that will be affected by the software update using the software dependency information* as recited in independent claims 35, 52, 53 and 59. Furthermore, it also fails to teach or reasonably suggest *receiving a current software configuration of a node into said software update simulator by receiving current software modules installed on said node and receiving a request for a simulation of a software update by receiving an updated software image into said simulator* as recited in independent claims 43, 46, 49 and 63.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
